Why Did You Take This Course?

Things You Like Best

Top Sixteen

lectures
news discussion
interesting
professor
current events oriented
website
old exams
humor
real world applications
review questions
no discussion section
textbook
not too much theory
course time
no homework assignments
content

Other

"Did I just have a stroke?"
ability to keep attention
able to sleep
banter keeps me awake
breadth of subject
Cancun stories are sweet
comfortable seating
concepts explained clearly
course location
Deardorff - what a character
Deardorff - you're cool
different perspectives given in readings
discussions in lecture
easy to understand
exam format
exam not bad
exams
exams reflect material from class
exposure to new ideas
facts about world economy
fits in with other econ classes
forces me to keep up with news
get to do crossword puzzles
good nap time
GSI
guest lecturers
handouts
historical stories related to material
information
information about how economy works

Things You Like Least

Top Thirteen

too much reading
1 1/2 hour class
lecture boring
readings
textbook
exam too hard
grade based on just three exams
bad handwriting
lecture
no discussion section
class size
exam
you ramble too much

Other

air conditioning (too cold)
all the vocab, but better than q&a
articles hard to find
assumes we know everything from 102
can be slow moving
clothing tips
course time right after lunch
coursepacks are intense
covers too much
curve
don't feel like I know how to apply it
droning voice
econ is just usually boring
exam grade
exam length
exam nit-picky
exam too much like past exams
exams don't assess knowledge of econ
first guest speaker not very good
grading too hard
graphs
guest lecturers sucked except Sweetland
hard to do well
internet questions useless
kid tells us to be quiet all the time
lack of downloadable powerpoint slides
lecture not interactive
lectures dry
lectures unimportant compared to readings
long explanation of simple concepts

knowledge gained	1	2	material boring
learning about world economy	2	1	material not too exciting
learning atmosphere	1	1	math
lectures clear	2	1	more book options
lectures entertaining	1	1	more visuals
lectures informative	1	1	never finish anything
lectures interesting	3	1	news discussion
lectures useful	1	1	no breaks in lecture
material fairly light	1	1	no discussion in class
material interesting	3	1	no extra credit
math and models	1	1	no lecture notes
migration	1	1	no powerpoint
mix of theory and fact	1	1	no practice
more attractive females than engin.	1	1	not enough time to look at real world numbers
news reading	2	1	obscure memory questions on exams
not a lot of busy work	2	1	office hours not helpful
not just focused on exam material	1	1	pace too fast
not too hard	1	1	people talk too much
not too much work	2	1	people who walk out of lecture
notes	2	2	readings not on exams
organization	3	1	readings not relevant
outlines	3	1	readings sometime redundant
overview	2	1	readings too long
pace of class	1	1	repeated material in lectures
practical application	5	1	some explanations too basic
principles of economics	1	1	soporific voice
professor fields questions well	1	1	speakers not so good sometimes
professor always doing something	1	1	tempo at times
professor's clothes, esp. jacket	1	1	textbook a bit dry
professor's knowledge	3	1	too fast
q&a on website	2	1	too fast recently
questions on readings	1	1	too little applications
readings	5	2	too little math
relevant facts	2	1	too little theory
resources wonderful	1	1	too many coursepacks
review of old concepts	1	1	too many facts
review questions on exam	1	2	too much detail on exams
story of professor	1	2	too much facts on exams
subject matter	3	1	too much information
that we know the test format	1	1	too much material covered
theory	1	1	too much theory that is not realistic
topics	3	1	too slow
two times a week	2	1	transparencies too small - you scroll fast
up-to-date stuff	3	1	vagueness of possible test questions
useful	2	1	we never get out early
WTO lecture	2	1	web readings not discussed
make funny jokes, don't realize it	1	1	wish I had another way to learn, than reading
your many brown suits	1	1	write more on transparency
