

I Will

Where are you flying
What are you trying
Wait minute don't leave me behind

Who'll stand behind you
Fight beside you
With your demons surrounding you

I will, I will, I will
I'm true
So true to you, until the end of time
End of time, end of time, end of time, end of time
End of time, end of time, end of time, end of time
Until the sun don't shine

Will I follow
When you run away
So far off no one hears what you say

Are we together
On the other side
Who will be your guide

I will, I will, I will
I'm true
So true to you, until the end of time
End of time, etc...
Until the sun don't shine
