

Welcome to the University of Michigan Cosmetic Surgery Center

Considering cosmetic surgery or aesthetic treatments? Curious about which procedure is right for you? The University of Michigan Cosmetic Surgery Center's team of highly-trained surgeons and specialists will guide you through each stage of this very personal process.

Our goal is to help you realize your goals. We take the time to answer questions and understand your concerns. And when you're ready, you can relax knowing that skilled University of Michigan surgeons are caring for you with the latest technology and techniques in a safe, appropriate environment.

Our team of plastic surgeons works closely with experts across the University of Michigan Health System to provide you with the most comprehensive care available. From Obagi® skin care programs and Botox® injections to surgery after weight-loss, our American Board of Plastic Surgeons certified physicians offer a full complement of cosmetic surgery and aesthetic treatments in the convenient, caring, private environment of our state-of-the-art facility at Domino's Farms in Ann Arbor, Michigan.

THE BEAUTY OF EXPERT CARE

Breast Procedures

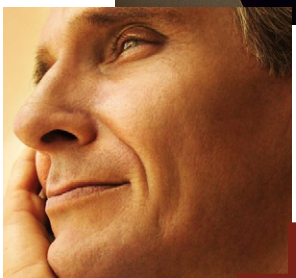

Whether you want to reduce the size of your breasts, are seeking breast enhancement, or would like to address unevenness in size or shape, our team of board-certified plastic surgeons offers expertise and compassion to guide you through your breast surgery. If you are seeking breast reconstruction after cancer, the University of Michigan is one of the world's leading medical centers for this procedure, and will work with you to define a customized treatment to best achieve your ideal shape.

Enhance Your Self-Confidence

Skin Treatments

A smooth, clear complexion is a reflection of health and physical attractiveness. As we age, keeping that youthful glow becomes more difficult – even a healthy diet and lifestyle can't repair serious skin damage. As the most exposed part of the body, the face is vulnerable to the harsh rays of the sun and subject to acne, rashes, allergic reactions, and injuries that may leave permanent scars. We treat your skin right with specialized skin care products and techniques including dermabrasion, chemical peels and laser resurfacing, all minimally-invasive technologies that reduce recovery time and scarring.

*Looking Younger
Doesn't Have to Mean Surgery*

Facial Rejuvenation

Your face reveals more than just expression. Looking in the mirror and feeling good about your appearance can have a powerful effect on your life; however, the aging process and natural imperfections can make this difficult. We offer a full range of procedures – from Botox® or injectable fillers to facelifts, eyelid lifts, lip augmentation and nose reshaping.

Look as Young as You Feel

Body Contouring Treatments

The shape of your body can change dramatically over the course of your life. Reactions to specific events, from pregnancy or weight gain to significant weight loss, can all have an impact on your size, shape and self-esteem. Body contouring can be an important step in achieving your goals, and we can help you find your ideal proportions and regain balance – from liposuction to target trouble areas, or a procedure to remove extra skin after significant weight loss.

Feel Confident on the Inside and Out

Surgery For Men

More men are discovering the benefits of Cosmetic Surgery to help them maintain a youthful appearance and lifestyle. Whether you want to improve your self-confidence or keep a competitive edge in your career, cosmetic surgery can help you meet those goals. We offer treatment plans customized for men with options such as liposuction, body contouring, male breast reduction, face lifts, hair restoration, and more.

Make an Investment in Your Lifestyle

Are surgeons at UM Cosmetic Surgery Center board certified?

Our surgeons are all board certified by the American Society of Plastic Surgeons. Our dedicated team of surgeons, nurses, residents and staff are qualified to provide you with the best available care.

Where are the procedures performed?

Our services are available at a variety of locations to serve our patients most efficiently. Your procedure will be performed at one of the University Hospitals or in our clinic at Domino's Farms. The location will depend on several factors including your physician, the procedure and your health, and whether you are being treated on an inpatient or outpatient basis.

Where will I go for my consultation?

To make your experience as comfortable and convenient as possible, your initial consultation and all pre- and post-operative appointments will take place at our Domino's Farms Plastic Surgery Clinic. Our clinic is easily accessible from the expressway, offers free parking and features a private, professional setting.

How do I get more info or schedule a consultation?

You can contact our call center at 1.877.UOFM COS (863.6267) or 734.998.6022 to schedule an appointment or request information on our cosmetic procedures. You can also visit us on the web at www.umcosmeticsurgery.com for more information on our board-certified plastic surgeons and procedures we offer.

What should I expect from my consultation visit?

During your first visit, your surgeon and medical team will discuss your cosmetic goals, surgical options that are best for you, as well as provide education and information on different types of procedures. We encourage you to bring a list of questions to the consultation. It is important to establish goals and expectations with your surgeon during your first visit.
