 330 West Hall
 Tel: 647-6825
 E-Mail: lorenzon@umich.edu

OFFICE HOURS: Tuesday 4:00 – 6:00 pm
 or by appointment at other times

TEXT: ”Modern Physics” by Kenneth Krane, 2nd Edition, John Wiley & Sons, 1996

GRADING: Midterm 30 %
 Final Exam 40 %
 Homework 30 %

HOMEWORK: - Must be handed in on time for credit
 - Must be written neatly on stapled paper
 - Must show derivations and clearly labeled answers (circle answers)
 - Solutions will be handed out after the homework is due

GENERAL REMARKS:

- Lectures: - The course will be based equally on the lectures and the text book.
 The text book will also provide the homework problems.
 - If you miss a class, it is your responsibility to learn the material
 covered during the class. I am not going to repeat the lecture.
- Exams: - There will be one 50-minute midterm exam given during regular class
 hours on Wednesday, October 29. *There will be no makeup exam.* If
 for any legitimate reason, e.g. illness, you cannot be present for the
 exam, notify me PRIOR to the examination time.
 - The final exam is currently scheduled for Monday, December 15
 at 1:30 – 3:30 pm. If you have 3 final exams on the same day or a final
 exam conflict, please notify me in writing during the next few weeks.
 If you cannot take the scheduled final exam, you must take the make-
 up exam in January, 1998.
 - All exams will be closed book. Necessary constants and formulas will
 be provided. Bring a calculator to the examinations.
 - Mistakes are made occasionally on grading exams or homework. If you
 feel that an error was made, you have one week from the day the exam
 or homework was returned to submit for a re-grade. All requests for
 re-grading and questions about grading must be in writing and
 NOTHING should be written or changed on your exam or homework.
